CITY COUNCIL AGENDA REPORT

SUBJECT: W-PNP, Inc. Information Technology Services Agreement

AGENDA DATE: March 2, 2010

PREPARED BY: Judith Hashem, Finance Director

APPROVED BY: Victor M. Carrillo, City Manager

RECOMMENDATION:

The City Council is requested to take the following actions:

1. Authorize the City Manager to enter into a contractual agreement with W-PNP, Inc. to provide information technology services for 3 years beginning February 17, 2010 at \$50 per hour or approximately \$4,000 per month with an option to renew for 2 additional years, plus approximately 20 hours per month for preparation of a standardization services plan at \$50 per hour.

FISCAL IMPACT:

An agreement has been reached, that if approved by City Council will provide information technology services to all City departments at a fixed cost of \$50 per hour for approximately 80 hours per month or \$4,000. In addition W-PNP, Inc. will provide the City with a standardization plan at a separate fee of \$50 per hour for an additional 20 hours of work for the first 3-4 months of the contract in order to maximize the IT resources, enhance efficiency, security, and technological sophistication.

BACKGROUND:

The City contracted with Daker's Computer Express from December 2004 until September 2009 for information technology services with that firm.

The Finance Department advertised for Request for Proposals in December 2009 and the following firms responded:

- GigaKOM
- Vasqo Technologies
- W-PNP, Inc.

After review and evaluation of the needs of the City's Information Technology Department by staff and based on the interview and proposers ability to meet the requirements of the RFP, we have determined that W-PNP, Inc. most fully met the requirements of the Request for Proposals. City departments have past experience in working with this firm and we believe W-PNP, Inc. can best serve our technology needs at this time. GigaKOM did not provide sufficient information and therefore did not substantially address the RFP and secondly they are located in Bonita and San Diego, which means a large part of the services to be provided would be via remote access. Vasqo Technologies is located in El Centro, however, the cost structure makes this firm's proposal prohibitively expensive for the City.

The Information Technology Department, as an internal service fund, is self-supporting. This means it operates based on user charges to supporting departments. As an internal service fund each department is charged for the services it receives, including access to information on the server, repairs to equipment, software replacement/updates, anti-virus protection, system backups, user licenses, infrastructure reserves, long-term planning, etc. The technology budget for Fiscal Year 2009-10 is \$134,629 with a balance remaining of \$105,397, which is sufficient to pay for the contract with W-PNP, Inc. for the balance of the fiscal year. In addition to the contractual services, this budget includes electricity and building maintenance of the Information Technology Office, office expense, computer maintenance and supplies, telephone service, user licenses and any capital items, such as a new server.

W-PNP, Inc. has quoted a fair price for its services and we believe, because of their expertise and local presence in Calexico, that we will obtain the best service at the best price. Therefore, we are recommending the City Council authorize the attached contract with W-PNP, Inc. for a period of 3 years, with an option to renew for an additional 2 years.

The standardization plan we have presented via this document would help enormously with the better utilization of the IT division. Based on our previous experience of service to the city, we decided to create the plan that would increase the value of our services and be cost-effective.

The cost of the standardization plan is not part of the monthly service fee. We will provide twenty hours extra of service per month for the first three to four months, to complete the standardization plan we have developed. This will provide us with the opportunity to continue our daily IT responsibilities and also complete the evaluation at a shorter period of time.
